

Paprika Csárda and Paprika Hotel have reopened their doors and we hope that we will soon be able to welcome you in our restaurant and hotel.

The health and safety of our guests and staff is a priority for us, so we have put in place measures in the restaurant and hotel that minimize the risk of infection so we can be effective in preventing the spread of the virus.

Only healthy employees work, they are not allowed to work on suspicion of any illness. Our staff members work in a mask that we apply and wear according to the rules and put even more emphasis on hygiene during guest service.

We regularly disinfect in our restaurant and hotel, please use the hand sanitizer!

We leave a sufficient distance between the tables in the restaurant building and on the terrace. Contact surfaces are regularly disinfected. In our own laundry, we wash and dry restaurant and hotel textiles at the right temperature, with chemicals that comply with hygiene rules.

We keep the right distance during the service, please keep a safe distance with the people in the building.

We ask you to use the services only if you have no symptoms of coronavirus, are not under quarantine surveillance or treatment, and acknowledge the need to follow the general hygiene rules and government regulations to protect the health of everyone in the place.

At the hotel reception we ask only 1 person to stay in front of the counter, the rest of the family wait further away. The room card and remote control are disinfected. Keep your distance when you have to wait and choose contactless payment methods!

We place even more emphasis on hygiene in the guest area, restaurant washrooms, service rooms, hotel rooms to ensure that the services are used in a safe environment.

We continue to pay close attention to food safety.

Please cooperate in complying with the disease prevention rules!

**We wish all our dear guests an undisturbed time and rest
in Paprika Csárda & Hotels!**
